BPS contractors
Mr Nicolas Petcu & Mr Silvio Beres

To whom it may concern:

We employed BPS contractors to complete the internal and external works in our new build property. The contract value was approximately £200k and involved ;

1. Complete installation of bathrooms inc fitting of plumbing and fixtures.
2. Flooring for entire house in ceramic, vinyl and wood for different floors
3. Decorating internally and externally throughout the new build
4. Installation of 30 doors and various cupboard closures.
4. Building Car Port and swimming pool Pergola
5. Laying 1000msq of artificial grass and tennis court surface. Cladding of various walls
7. High quality rendering and guttering to entire property.
8. Full landscaping inc patio, artificial grass and fencing.
9. Pool house and garden shed construction and internal finishing.
10. Garden Irrigation pipes
11. Various other carpentry, plumbing and building works

BPS contractors completed all works to a very high standard and were completely reliable and honest throughout the project. Nicholas and Silvio work extremely well as a team and provide a high level of supervision for their staff. We were always able to contact Nicholas at any time of the day and he was almost always on site supervising his team. They were ready to correct any

minor snags and we had full confidence knowing that they would always rectify or modify any changes that we may require.

Nicholas and Silvio are very easy to get on with and maintain a very high level of professionalism, friendliness and flexibility. Our project would not have progressed so well without BPS. We had to cancel contracts with various other companies who let us down during the project and BPS contractors were always able to step in and help finish off various works that other builders had left behind.

We are busy professionals and found it difficult to be on site during the works, but Nicholas and his team could be fully trusted with keys to our house and they maintained a vigilant watch on the property while we were away.

We have already offered another job to BPS contractors and have recommended them to family and friends. We were also recommended BPS contractors by a friend.

There is no doubt that Nicholas and Silvio would be able to bring a team of workers to complete any job of any size or complexity. They are a fantastic team and the quality of their work is exceptional. As well as being of such high quality, they are well priced.
